## Web archive features and futures

WARCnet meeting, 13-15 June 2022

Under the heading 'Web archive features and futures' the fifth WARCnet meeting aims to:

- consider the key features of web archives and web archive studies that have been highlighted by the WARCnet project,
- explore how a greater understanding of these features will help to inform future directions for web archives.

Within the meeting there are six types of sessions:

- Keynotes that are open for participants outside the network (upon registration).
- WG sessions.
- WG presentations to other WGs.
- A Tools Bazaar, where participants share and demonstrate tools, scripts, datasets, and workflows they are using.
- Sessions about the future of and after the WARCnet network.
- A public discussion session on the resilience of the born digital.

The meeting will end with a brief business meeting to address administrative matters.

## Practicalities

Venue: The meeting takes place at the University of London Senate House. Online participation via Zoom is also possible for those who cannot attend the meeting in London. You can find information about getting to the venue and Zoom invitations at the end of this programme.

Keynotes and the public discussion session are open to a wider public upon registration.

**Discussion session: The future of WARCnet?**

Chair: Peter Webster

Are you planning to study the archived Web or are you writing a research proposal for a grant? We warmly invite you to join this session in which we like to offer advice and discuss how WARCnet can support your research.

In 2020-22, the Independent Research Fund Denmark generously supported network activities to study the archived Web. This offered the opportunity for the WARCnet network to grow and strengthen collaborations between researchers in various disciplines and across Europe. Ideally, we like to sustain this network so that we can continue to conduct research to study the archived Web within interdisciplinary and international research teams.

Therefore, we like to start this session with a plenary discussion to explore potential joined research projects. After that, we offer consultation slots to all WARCnet members who are planning research to study the archived Web or are in the process of writing a grant proposal. In a one-on-one meeting, we can offer advice and explore how WARCnet will be able to support your research.

Please book a one-to-one consultation session by filling in your name in the [registration form](#).

## Getting to the venue

The University of London Senate House is within walking distance (5-10 minutes) of the Royal National Hotel, (max 15-20 minutes) of King's Cross and Euston mainline stations, and (5-10 minutes) of numerous underground stations, including Russell Square, Goodge Street, Holborn, Euston Square and Tottenham Court Road. Within the Transport for London network (including tube and buses) you can pay for travel using a contactless card or mobile device (including Apple and Google Pay). Alternatively you could choose to buy an Oyster card. Cash payments are not accepted on London buses. For more details, see <https://tfl.gov.uk/fares/how-to-pay-and-where-to-buy-tickets-and-oyster/pay-as-you-go/contactless-and-mobile-pay-as-you-go>.

For more information about Senate House and the surrounding area, including directions for accessing the building, see maps below and <https://www.sas.ac.uk/sites/default/files/files/University%20of%20London%20maps.pdf>, to which the numbers on the maps refer.

The aim of the **WARCnet network** is to promote high-quality national and transnational research that will help us to understand the history of (trans)national web domains and of transnational events on the web, drawing on the increasingly important digital cultural heritage held in national web archives. The network activities run in 2020-22, hosted by the School of Communication and Culture at Aarhus University, and are funded by the Independent Research Fund Denmark | Humanities (grant no 9055-00005B).
